Figure 1 is a schematic diagram of a microfluidic device. The top part is a cross-sectional view showing a central channel 50 with a downward arrow indicating flow. The channel is flanked by walls 53. A dashed line A-A' indicates the plane of the cross-section. The bottom part is a top-down view of the circular device 1, showing concentric rings 51 and 52, and a central region 54. A legend indicates that white areas represent liquid and hatched areas represent tensio-active gas.
